18   Area and perimeter of a rectangle

```
#include <stdio.h>

 int main() {

 int area, perimeter, length, width;

 printf("Enter length, width: ");

 scanf("%d, %d" &length, &width);

 (area = (length) * (width)), (perimeter = 2 *
(width+length ));

 printf("area, perimeter = %d\n, %d\n", area,
perimeter);

 return 0;

 }
```
